Chief, European Division  Chief, European Division  CALL CANNISPER/CAWHISPER-16's Attempt to Centralize the Passing of Information to the Allies  Reference: EGBA-89529, 13 April 1970  Regarding paragraph five of reference, we would like to comment that CAWHISPER-16 has been trying for years to make CAWHISPER the central point for passing finished intelligence products of the Laender to the Allies. Although he has no objections to discussions on the Land level regarding operations affecting the security of the forces stationed in Germany, he would prefer that all general reports, such as annual reports, studies on the DKP, NPD, etc. be passed on the Federal level only. As addressees are well aware, he has not succeeded in this to date. We would also like to remind addressees that CAWHISPER-16, several years back, made a strong request that all invitations issued to LiV officers to visit WOLADY must have his approval first.
